New Bulletin 194E Large-Frame Load Switches

Rockwell Automation announces the release of new Allen-Bradley Bulletin 194E large-frame load switches (125...315A) that will complement its existing offering of Bulletin 194E load switches (25...100A).

Expanded Range of Switches

The new large-frame load switches are available in 125, 160, 250, and 315A sizes in both 3- and 4-pole versions. These switches come with either box lug or bolt-on terminals and are rated up to 100hp at 460V AC.

UL Listed

Bulletin 194E large-frame load switches are UL 508 listed/recognized for use as at-motor disconnects. They are suitable for any application that requires an at-motor disconnect or isolation of a motor.

New Actuators

New IP65 Type 3/12 disk-type handles are available for these load switches. The customer can select from either red/yellow or black/gray versions.
