

**ABECOS™***Allen-Bradley Expert Control System***System Designer Software****Products Supported**

This document identifies the products supported in the ABECOS System Designer database. This document is updated frequently to reflect product changes and additions that are made to the software. As a general rule, only products currently listed in Publication ICCG-3.5 Master Price List are supported. These include:

- PLC-5™ Processors and the Pyramid Integrator™
- PLC-3™ Processors
- SLC™ 500 Modular Hardware Processors
- Chassis, modules, power supplies and accessories associated with the three families of processors listed above
- Drive interface modules
- Rack equivalent devices
PanelView™, Dataliner™, RediPANEL™, for instance, are supported to the same extent as other I/O devices with the exception that assignment of tags within the device is not supported.

Not all modules are completely supported. For instance, the 1771-SN rack extension function is not supported, nor is the network configuration of the communication modules supported.

ABECOS, PLC-5, Pyramid Integrator, PLC-3, SLC 500, PanelView, Dataliner, and RediPANEL are trademarks of Allen-Bradley Company.

AB PLCs

A subsidiary of Rockwell International, one of the world's largest technology companies, Allen-Bradley meets today's automation challenges with over 85 years of practical plant floor experience. Over 11,000 employees throughout the world design, manufacture and apply a wide range of control and automation products and supporting services to help our customers continuously improve quality, productivity and time to market. These products and services not only control individual machines, but also integrate the manufacturing process while providing access to vital plant floor data that can be used to support decision-making throughout the enterprise.

With offices in major cities worldwide.
