

## 1326 Cables for the 1394 System

### Making Connections Reliable and Easy

The new 1326 cables provide superior construction while offering a wide array of connection accessories.

### Constructed to Perform

The new Series B construction provides protection against the effect of electro-magnetic interference (EMI) and chemically harsh environments.

### Features

- Viton bellows cover snap-ring to prevent moisture from entering connection (-L only)
- Flexible strain relief
- Cable bonded to mold

### EMI

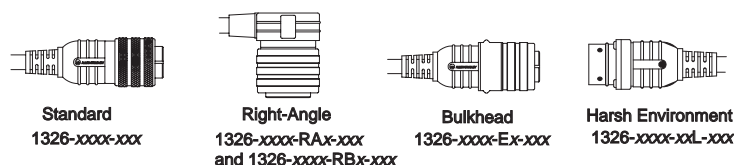

- Highly conductive ring connects outer shield
- 360 termination of braided shield on all power cables
- Special black cobalt conductive coating on all connectors
- Overall braided shield

### Environment

- Pre-molded hard PVC encapsulates connectors
- Mold sealed to connector

### Installing is Easy

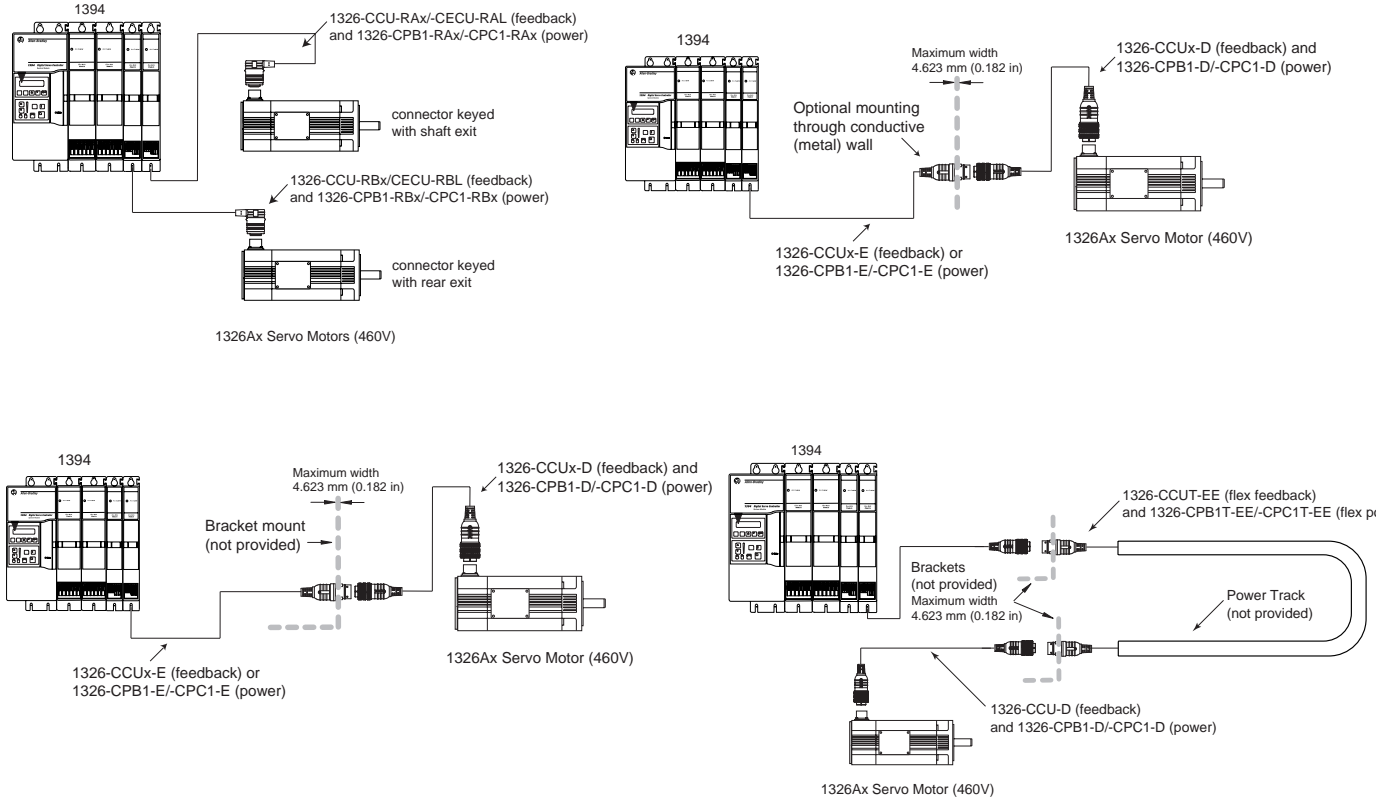

A wide array of connection accessories (shown below) allow you to easily install 1326 cables.

Allen-Bradley Replacements

## Application Solution Examples

This solution:	Provides:
Right-Angle Connection	a low-profile right angle connection at the motor.
CE Compliant bulkhead connection	a quick-connect/disconnect at the cabinet wall, while meeting CE requirements.
Remote bulkhead connection	a connection made outside of the cabinet to facilitate the use of flex and non-flex together.
Double-ended bulkhead	the ability to use flex cable mounted to a panel on both ends.

Rockwell Automation helps its customers receive a superior return on their investment by bringing together leading brands in industrial automation, creating a broad spectrum of easy-to-integrate products. These are supported by local technical resources available worldwide, a global network of system solutions providers, and the advanced technology resources of Rockwell.
