

ControlLogix™ to the ULTRA™ 100/200 Digital Two-Axis Servo Drive Cable (Catalog Number 1398-CCAExx)

This document provides cable catalog numbers, cable pinouts, and cable drawings for the ControlLogix to an ULTRA 100/200 Digital Two-Axis Servo Drive Cable (Catalog Number 1398-CCAExx).

Understanding Cable Catalog Numbers

The beginning portion of the cable catalog number is 1398. In addition, the options are the cable type, type of encoder used, and the style and length of the cable. When you combine all of the characters, you create the catalog number for the cable that you need.
