Adding Options to Your ProcessLogix System

Your system configuration is originally shipped as a 20-point base server that is inactive. As supplied, your system is not ready for your use.

You should have received your system ID and authorization number with your order. If not, you must call (440) 646-4400 or fax (440) 646-4399 for a new authorization number to enable your purchased options. Be prepared to supply your system ID number and SV number.

To enable ProcessLogix for use, you need to enter your authorization number according to the instructions below.

1. Select Start⇒Programs⇒ProcessLogix Server⇒Start-Stop ProcessLogix Server. Click on Stop and then click on Yes.
2. To access the existing authorization number, follow steps 1 through 3 in the table on page 1.
3. Check the Change Software License box.
4. Click on Next.
5. Enter the system number and the new authorization number.
6. Click on Next.
7. Ensure that the default software installation directory is c:\honeywell\tps50. Click on Next.
8. Click on Next.
9. Click on Finish.
10. If the new authorization number is required for a change in database size, a dialog box will ask if you wish to rebuild the database. Click on Yes. Allow a few minutes for this step to complete.
11. Click on Finish.
