

# 1761-NET-ENI Operating System Firmware FRN 2.20

Read this document prior to using the 1761-NET-ENI module with FRN 2.20. This release note provides information about:

- New FRN 2.20 features
- Using the FRN 2.20 Upgrade CD (included with upgrade)
- Finding Additional Support Documentation

## New FRN 2.20 Features

FRN 2.20 provides 1761-NET-ENI Series A users all of the features and benefits available to Series B ENI users.

- 1761-NET-ENI FRN 2.20 provides more complete functional integration for CompactLogix users, eliminating the need for a second ENI module connected to the programming PC's communication port.
- FRN 2.20 offers more robust communications performance in CompactLogix systems, through elimination of the overhead from the second ENI, and numerous data handling improvements.
- FRN 2.20 offers the ability to use Dynamic Host Configuration Protocol (DHCP), as well as two new BOOTP options.

## Using the FRN 2.20 Upgrade CD

The FRN 2.20 Upgrade CD contains the new ENI Series B Utility, and a new EDS (Electronic Data Sheet) file for use with FRN 2.20. Installation instructions are detailed in the ReadMe.txt file.

---

**IMPORTANT** Users will need the ENI Series B Utility to re-enter configuration information after the upgrade has been performed by Customer Support.

---

RSLinx 2.31 users will need to install the new EDS file. RSLinx 2.40 includes the required file.

AB Drives

## Finding Additional Support Documentation
