

# EAC Micro Style Quick Disconnect

### Description

Rockwell Automation offers a wide variety of connection products for interfacing field devices to I/O, junction boxes, PLCs, etc. Connection systems products are made of durable materials and are designed to handle rough industrial environments.

Featuring industry standard 4-pin overmolded connectors, Allen-Bradley EAC micro quick-disconnect cables provide secure connection for proximity sensors, photoelectric sensors and other field devices. Connectors can be straight or right-angled and are physically keyed to prevent wiring mishaps. Allen-Bradley EAC micro style cordsets are UL recognized and CSA certified and feature a yellow PVC jacket for high visibility and increased oil/chemical resistance.

Rockwell Automation is continually expanding its connection system offerings. If our standard catalog does not contain the item that you need, or you have a special application, please contact your distributor or the factory for assistance.
